Meltwater

Newsletter 3.0 concept

Feb‘25

Meltwater

Newsletter Overall

Background Information

- The outdated workflow requires 26–46 steps to curate a newsletter, which is inefficient and unsustainable in the fast-paced AI era.
- More and more people are turning to AI tools to enhance daily tasks, boost productivity, and work smarter.

= 46 Steps

Users' Feedback

- "Tools are not intuitive"
- "The UX is pretty weak and not very intuitive."
- "The lay-out/template of the newsletter is less attractive than the previous version."

Our Goals

- *Improve the 23.3% CES rate from 60 to 74*
- *Increase the Migrate rate from 33% to 80% from legacy newsletter to the new newsletter*

Manual Newsletters, Current setup workflow - (4 + 2 steps)

Landing page

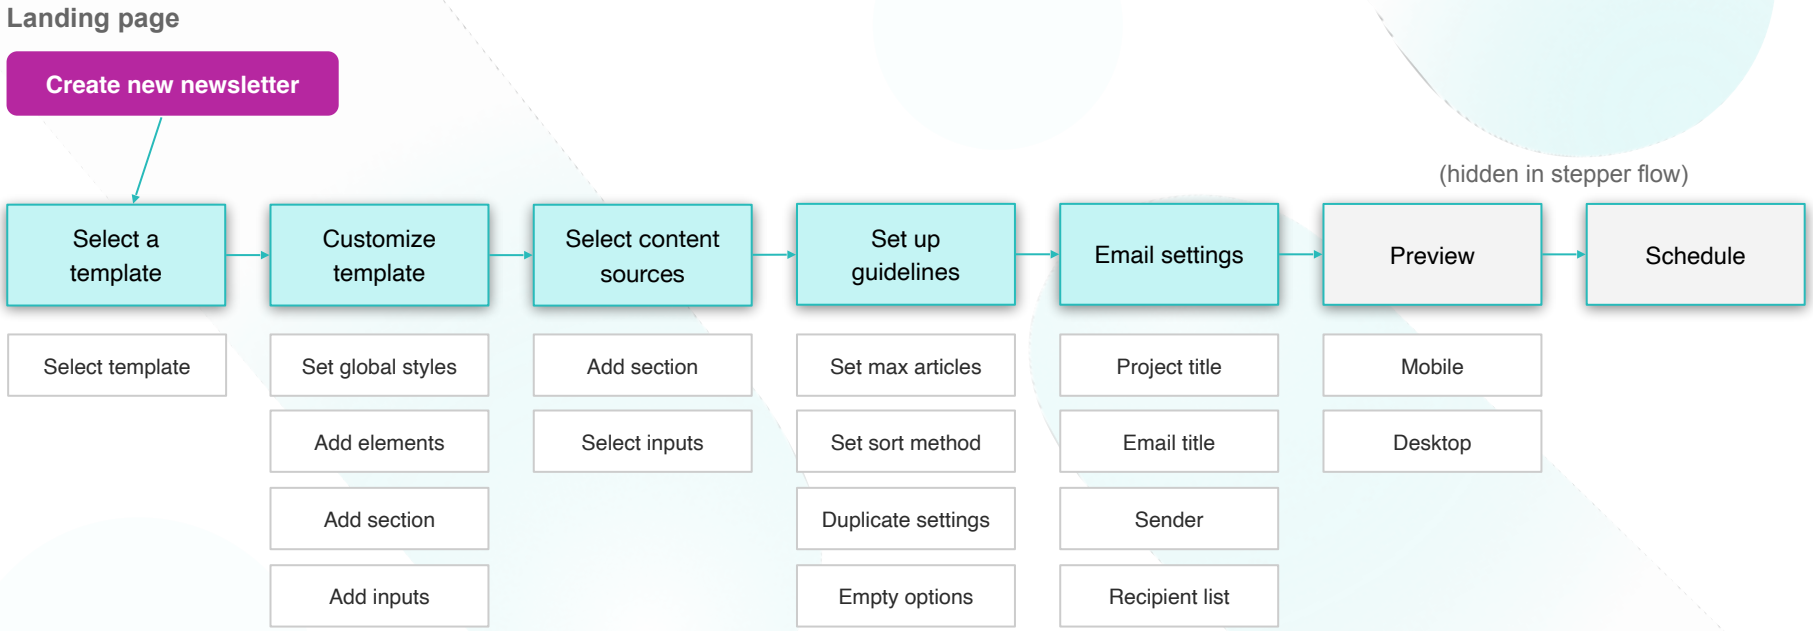
Create new newsletter

(hidden in stepper flow)

Select a template	Customize template	Select content	Email settings	Preview	Schedule
Select template	Set global styles	Add section	Project title	Mobile	
	Add elements	Select inputs	Email title	Desktop	
	Add section		Sender		
	Add inputs		Recipient list		

Meltwater

Automated Newsletters, Current setup workflow - (5 + 2 steps)



Meltwater

The current Newsletter workflow is not optimized for the AI era.

Three Strategies

Newsletter 2.0+
Small improvements but prioritize the previous CES feedback, and focus on ease of use

🚗 **manual transmission car**

Newsletter 3.0
Combine Manual and Automated Newsletter + AI

🚙 **automatic transmission car**

2025 User Experience Goals

Product Swimlanes	Design Priorities/ Initiatives	2025 UPDATED KRS	
Customer Love	**Ease-of-Use** • Identify high customer value, high feasibility opportunities that provide immediate and medium-term impact that improves our UX.	Increase overall CES from **56** to **70** by 2026 **156 Usability improvements** by end of year Contribute to 10-15% Churn Reduction	**CES: (60->74)** **Usability: 21/105 H1** Churn rate: no data
Unified Platform	**Unified Platform** • Unify the platform. Identify core workflows patterns and components that work in a unified way. • Progressively connect the experience by providing simplicity and cohesion.	Increase onboarding confidence in our platform from **3.25** to **4.0** **Launch 2 major unification projects with CES of 60 or higher.** **Improved** feature adoption by 10% **by EOY**	Onboarding: no data **AI Search+Newsletter** Feature adoption: add later
GenAI Innovation	**Workflow Innovation (GenAI)** • Create larger high-value workflow and application concepts utilizing GenAI and Meltwater value propositions.	**20-30% lift in CES** coming from GenAI based workflows **Complete 4-5 GenAI** launches to re-imagine workflows and time-on-task.	**20%-30% lift in CES** **AI Newsletter**

Meltwater

Problem Statement:

How can we redesign the Meltwater newsletter with AI to make it smarter, more personalized, and efficient, driving growth in CES and migration while streamlining content curation for a more intuitive and impactful user experience?

Three Strategies

Newsletter 2.0+
Small improvements but prioritize the previous CES feedback, and focus on ease of use

🚗 **manual transmission car**

Ideally

Current setup workflow - (6 and 7 steps)

Landing page

Create new newsletter

Automated NL

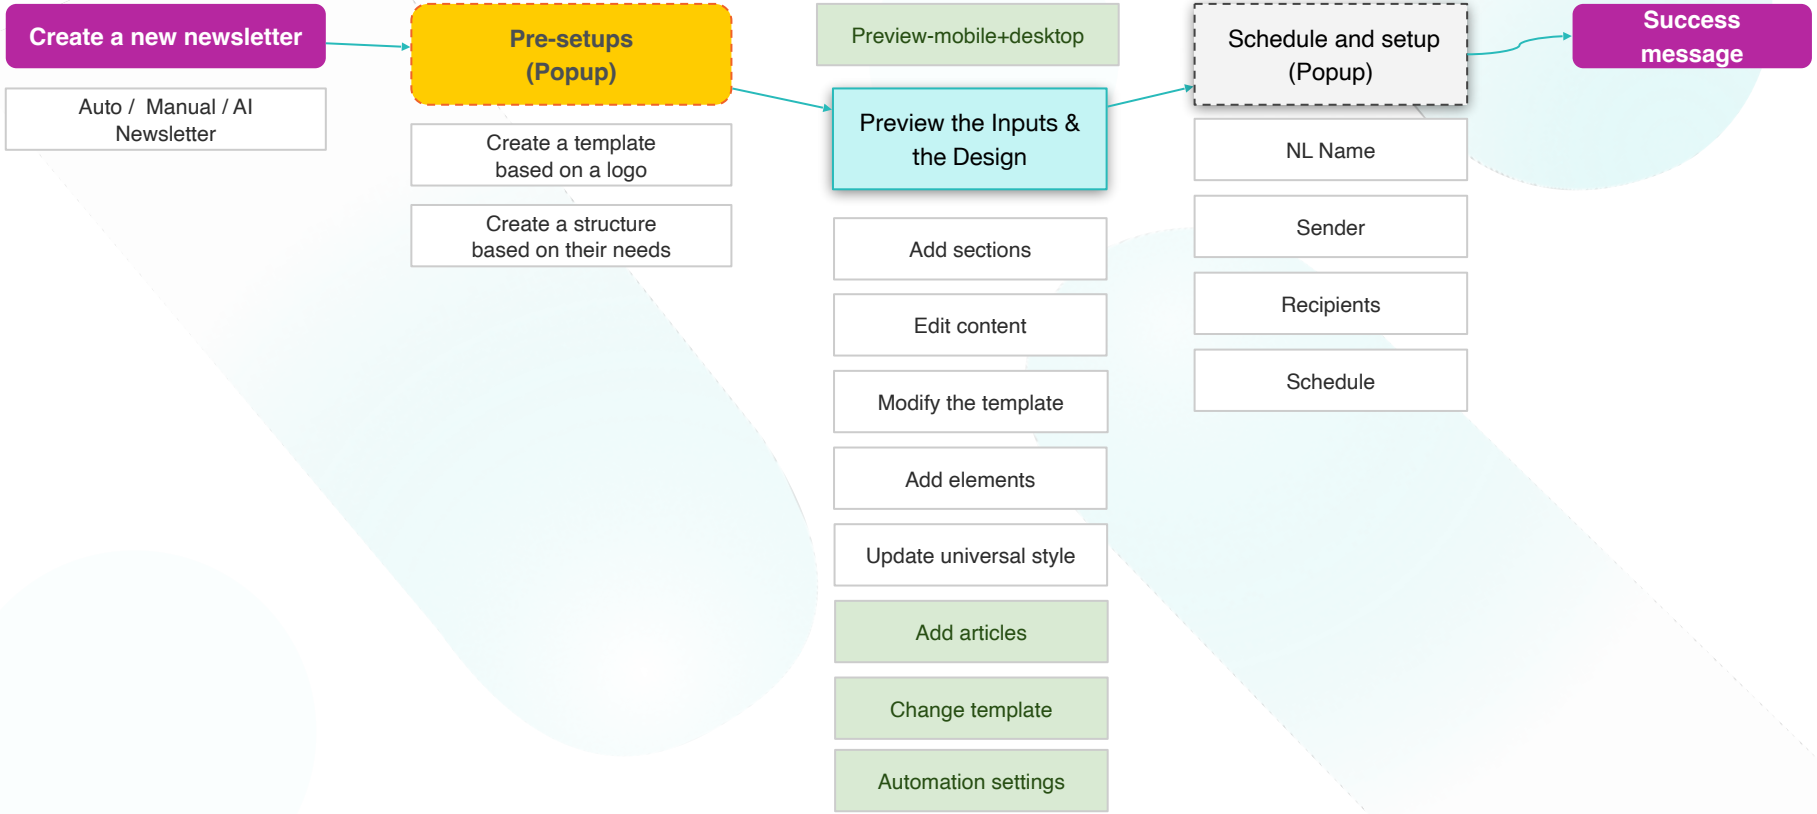
- Select a template
  - Select template
- Customize template
  - Set global styles
  - Add elements
  - Add section
  - Add inputs
- Select content sources
  - Add section
  - Select inputs
- Set up guidelines
  - Set max articles
  - Set sort method
  - Duplicate settings
- Email settings
- Preview (hidden in stepper flow)
- Schedule

Manual NL

- Select a template
  - Select template
- Customize template
  - Set global styles
  - Add elements
  - Add section
  - Add inputs
- Select content
  - Add section
  - Select inputs
- Email settings
- Preview (hidden in stepper flow)
- Schedule

Meltwater

Proposed setup workflow - (1 step)



Meltwater

Landing page

Create automated newsletter

(hidden in stepper flow)

Select a template	Customize template	Select content sources	Automation Settings	Email settings	Preview	Schedule
Select template	Set global styles	Add section	Set max articles	Project title	Mobile	
	Add elements	Select articles	Set sort method	Email title	Desktop	
	Add section		Duplicate settings	Sender		
	Edit content		Empty options	Recipient list		
	Modify template					

Meltwater

Landing page

Create manual newsletter

(hidden in stepper flow)

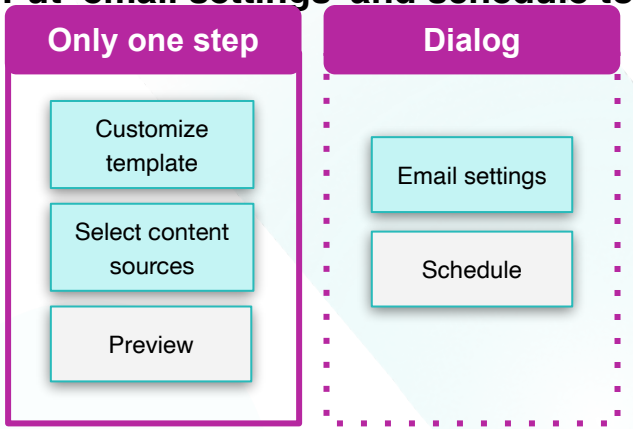
Select a template	Customize template	Select content	Email settings	Preview	Schedule
Select template	Set global styles	Add section	Project title	Mobile	
	Add elements	Select articles	Email title	Desktop	
	Add section		Sender		
	Edit content		Recipient list		
	Modify template				

Meltwater

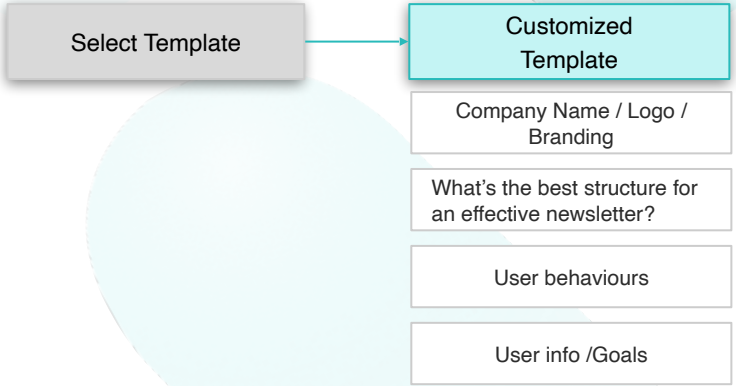
Three main updates

Remove steps, combine ‘template settings’, ‘select content’, and ‘preview’ together

Put ‘email settings’ and schedule together



Auto-generate templates using company data and best practices.



Seamlessly switch between automated and manual newsletters.
